

# TABLE OF CONTENTS

---

Abbreviations .....	XVI
<b>1.</b> History of ocular tumor radiotherapy in Krakow – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	1
<b>2.</b> Genetic aspects of ocular tumours – <i>Jakub Khzouz, Sarah E. Coupland</i> .....	11
Introduction .....	11
Eyelid cancers .....	11
Basal cell carcinoma .....	11
Sebaceous carcinoma .....	13
Merkel cell carcinoma .....	14
Conjunctival cancers .....	15
Conjunctival squamous carcinoma and pre-invasive lesions .....	15
Conjunctival melanoma .....	17
Conjunctival lymphomas .....	18
Intraocular cancers .....	19
Medulloepithelioma .....	19
Retinoblastoma .....	20
Uveal melanoma .....	22
Vitreoretinal Lymphoma .....	23
Summary .....	24
<b>3.</b> Immunology of ocular tumors – <i>Martine J. Jager, Jinfeng Cao</i> .....	27
Introduction .....	27
Immune checkpoint inhibitors .....	27
Uveal melanoma: effect of checkpoint inhibitors .....	28
Other therapies .....	29
Presence of inflammation in UM .....	29
Phenotype-genotype comparisons .....	29
Comparison to other tumors .....	30
Conjunctival melanoma .....	31
Side effects of treatment .....	32
Conclusions .....	32
<b>4.</b> Eyelid tumors – <i>Joshua Ford, Bitá Esmaeli</i> .....	35
Introduction .....	35
Overview of eyelid malignancies .....	36
Basal cell carcinoma (BCC) .....	36

Squamous cell carcinoma .....	37
Sebaceous carcinoma (SebC) .....	37
Periocular sweat gland carcinoma .....	38
Merkel cell carcinoma .....	38
Malignant hair follicle carcinoma .....	39
Eyelid melanoma .....	39
American Joint Committee on Cancer Staging (TNM) of eyelid malignancies .....	40
Surgical management .....	40
Basal cell carcinoma .....	40
Squamous cell and sebaceous cell carcinoma .....	40
Eyelid melanoma .....	41
Merkel cell carcinoma.....	41
Sentinel lymph node biopsy (SLNB) .....	41
Adjuvant therapies .....	42
Topical therapies – Imiquimod (Aldara) .....	42
Targeted therapies .....	42
BRAf targeted therapy (vemurafenib, sorafenib, dabrafenib) .....	43
Immune checkpoint inhibitors (pembrolizumab, ipilimumab, nivolumab, avelumab) .....	43
Other therapies (cryotherapy).....	44
Summary.....	44
<b>5. Conjunctival tumors – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....</b>	<b>49</b>
Benign conjunctival tumors .....	50
Vascular lesions of the conjunctiva .....	60
Pigmented lesions .....	69
Congenital and acquired melanosis .....	70
Malignant conjunctival tumors .....	76
Conjunctival squamous intraepithelial neoplasia (CIN; also termed C-SIN) .....	76
Invasive conjunctival squamous cell carcinoma (SCC) .....	76
Conjunctival melanoma .....	80
Lymphoid tumors .....	90
Metastatic tumors .....	94
Secondary conjunctival tumors .....	95
Differential diagnosis of conjunctival tumors .....	95
Conclusion .....	102
<b>6. Uveal tumors .....</b>	<b>105</b>
Iris cyst – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	105
Uveal nevi and melanoma – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	123
Iris nevus .....	124
Iris melanoma .....	140
Iris metastases .....	161
Ciliary body tumors – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	166
Ciliary body cyst .....	166

Ciliary body and peripheral choroidal melanoma .....	168
Ciliary body metastases .....	175
Ciliary body adenoma and ciliary body adenocarcinoma .....	176
Differential diagnosis of ciliary body tumors .....	176
Choroidal tumors .....	181
Choroidal hemangioma – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	181
Choroidal osteoma – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	201
Sclero-choroidal calcifications – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	211
Choroidal pigmented tumors – <i>Bożena Romanowska-Dixon, Barbara Jakubowska, Izabella Karska-Basta</i> .....	215
Management of ciliary body and/or choroidal melanoma .....	277
Surgical treatment – <i>Bożena Romanowska-Dixon, Agnieszka Kubicka-Trząska</i> .....	277
Endoresection of choroidal melanoma – <i>Agnieszka Kubicka-Trząska</i> .....	277
Exoresection – <i>Bożena Romanowska-Dixon</i> .....	282
Enucleation – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	285
Radiotherapy – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	295
Prediction of metastatic disease in patients with choroidal melanoma – <i>Bertil Damato</i> .....	314
Intraocular metastases – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	317
Introduction .....	317
Diagnosis .....	318
Treatment .....	319
Examples of intraocular metastases .....	320
Leukemia – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	339
<b>7. Differential diagnosis of intraocular tumors – <i>Barbara Jakubowska, Bożena Romanowska-Dixon, Izabella Karska-Basta</i></b> .....	<b>347</b>
Use of optical coherence tomography in a differential diagnosis of uveal tumor .....	353
Lesions masquerading as uveal melanoma .....	361
Use of indocyanine angiography in a differential diagnosis of uveal tumors .....	365
<b>8. Retinal tumors – <i>Bożena Romanowska-Dixon, Barbara Jakubowska, Joanna Kobylarz</i></b> .....	<b>369</b>
Retinal tumors – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	369
Retinal glioma – <i>Bożena Romanowska-Dixon, Barbara Jakubowska</i> .....	384
Retinoblastoma – <i>Joanna Kobylarz, Bożena Romanowska-Dixon</i> .....	408
Introduction .....	408
Pathogenesis .....	408
Symptoms .....	408
Diagnosis .....	410
Clinical manifestation .....	413
Classification .....	415
Treatment .....	417

Post-treatment management .....	421
Prophylaxis .....	422
Summary .....	423
Intra-arterial chemotherapy for retinoblastoma – <i>Christina Stathopoulos, Carol L. Shields</i> .....	423
Congenital hypertrophy of RPE (CHRPE) – <i>Bożena Romanowska-Dixon,</i> <i>Barbara Jakubowska</i> .....	430
<b>9. Intraocular lymphomas – <i>Agnieszka Kubicka-Trzaska</i></b> .....	455
Epidemiology, classification, and clinical characteristics .....	455
Diagnosis .....	458
Imaging in intraocular lymphoma .....	459
Treatment .....	462
Prognosis .....	464
<b>10. Retrobulbar Orbital Tumors – <i>Jacek Składzień</i></b> .....	467
Orbital anatomy .....	467
Diagnosing orbital tumor .....	471
Diagnosing and treatment orbital tumors .....	473
Imaging .....	474
Medical history .....	474
Selected orbital malignancies in the retrobulbar region .....	475
Dermoid cyst, epidermoid cyst and developmental cyst of the orbit .....	475
Cavernous hemangioma of the orbit .....	475
Capillary hemangioma .....	476
Lymphatic hemangioma of the orbit (venous-lymphatic malformation, vascular hamartoma) .....	476
Idiopathic orbital inflammation (IOI)(orbital ‘pseudotumorlg-4’) .....	477
Astrocytoma (glioma) .....	477
Optic nerve meningioma .....	478
Lacrimal apparatus disorders .....	479
Metastases of orbital tumors .....	479
Surgical treatment .....	480
Summary – basic techniques for accessing tumors .....	488
Orbital exenteration .....	488
Rehabilitation after surgery .....	489
<b>11. Radiotherapy of ocular and orbital tumors – <i>Beata Sas-Korczyńska</i></b> .....	493
Radiotherapy – characteristics .....	493
Interaction of ionizing radiation with matter .....	493
Energy and dose .....	496
Biological effects .....	496
Dose fractionation .....	497

External Beam Radiation Therapy (EBRT) .....	497
Brachytherapy .....	500
Radiotherapy of ocular and orbital tumors .....	501
Radiotherapy purpose and techniques .....	501
Radiation dose .....	502
Side effects in the radiotherapy of ocular and orbital tumors .....	504
Eyelid dermatitis .....	505
Conjunctivitis .....	505
Dry eye syndrome .....	505
Side effects in the cornea (keratopathy) .....	506
Cataract .....	506
Side effects on the iris .....	506
Side effects in the retina (retinopathy) .....	506
Optic neuropathy .....	507
Side effects in the sclera .....	507
Conclusion .....	507
<b>12.</b> Preparation of orbit material for histopathological examination – <i>Jolanta Orłowska-Heitzman</i> .....	511
<b>13.</b> Pathology of orbital tumors – <i>Dariusz Adamek</i> .....	515
Introduction .....	515
Non-cancerous orbital lesions .....	517
Most common types of orbital tumors and tumor-like lesions .....	519
Tumors of the optic nerve and its sheaths .....	519
Peripheral nerve tumors and other neurogenic tumors .....	522
Other neurogenic tumors .....	523
Tumors arising from the muscular or adipose tissue, fibrohistiocytic tumors, and other mesenchymal tumors .....	524
Osseous and chondral tumors and tumor-like lesions .....	525
Tumors and other proliferative lesions of the lymphatic, hematopoietic and histiocytic systems .....	527
Malignant secondary and metastatic orbital tumors .....	532
<b>14.</b> Experimental models to study metastasis in uveal melanoma – <i>Martyna Elas</i> .....	535
Cell culture and tumoroids .....	535
Animal models .....	536
CAM .....	536
Zebrafish .....	537
Rat, mouse and hamster .....	539
Rabbit .....	540
Transgenic models of UM .....	541
Conclusions .....	541
Index .....	545
